

## On Beyond Uranium: Journey to the End of the Periodic Table (Science Spectra)

In the early nineteenth century chemists knew of the existence of ninety-two chemical elements, from Hydrogen to Uranium. For nearly forty years scientists thought they knew the content of our planet and all of its contents. In the late 1930s the world of chemical science began to discover elements beyond Uranium - the transuranics. These new, super-heavy elements are probably not found in nature at all but can be detected, if only for a few fractions of a second, in precisely designed experiments using powerful nuclear tools. *On Beyond Uranium: Journey to the End of the Periodic Table* is full of exciting new concepts and tells the story of the authors quest to discover elements never before known to man.

**Science Spectra - Routledge** Sigurd Hofmann (\* 15. Februar 1944 in Bohmisch-Kamnitz) ist ein deutscher Physiker und In: Physik in unserer Zeit, Band 1, 2012, S. 3039, online Sigurd Hofmann: *On Beyond Uranium - Journey to the end of the Periodic Table*. In: Science Spectra Book Series, Volume 2, V. Moses, Series Editor, ISBN 0-415-28495-3

**On Beyond Uranium: Journey to the End of the Periodic Table** Learn more at Author Central *On Beyond Uranium: Journey to the End of the Periodic Table (Science Spectra)*. \$47.95. Paperback. Books by Sigurd Hofmann **On Beyond Uranium Journey to the End of the Periodic Table** Books *On Beyond Uranium: Journey to the End of the Periodic Table* His speciality is nuclear spectroscopy and heavy ion reactions. 2011 Nicolaus Copernicus Medal of the Polish Academy of Sciences in Warsaw, Poland 2011 Medal **On beyond uranium journey to the end of the periodic table pdf** *On Beyond Uranium: Journey to the End of the Periodic Table*.
