

Cellular Biology: Organelles, Structure, Function (Super Smart Science Series)

Cellular Biology: Organelles, Structure and Function covers the basics of biology on a cellular level, specialized in text for emergent readers. This book includes sound it out sections containing phonics for the names of the organelles inside the cell. Young readers will learn what each organelle looks like and how it functions in the cell. Questions are posed throughout as a form of review so the reader is reinforcing the new material learned. Colorful images and text make this book intriguing and engaging for all ages!
