

La Vasija Que Juan Fabrico (Spanish Edition)

Juan Quezada is the premier potter in Mexico. With local materials and the primitive methods of the Casas Grandes people including using human hair to make brushes and cow manure to feed the flames that fire his pots Juan creates stunning pots in the traditional style. Each is a work of art unlike any other. The text is written in the form of *The House That Jack Built* and accompanied by a comprehensive afterword with photos and information about Juans technique as well as a history of Mata Ortiz, the northern Mexican village where Juan began and continues to work. This celebratory story tells how Juans pioneering work has transformed Mata Ortiz from an impoverished village into a prosperous community of world-renowned artists.
