

# Trains, Engines and Locomotives: I Love Trains

From steam engines to modern trains, this book contains photos and facts about 27 train engines. It is perfect for children interested in trains. Eric and Rufus Education strives to encourage children to explore the real and natural world, via the use of books featuring photos of real things. We seek to move literacy out of solely the indoor class environment into the outdoor world and include outdoor activities and outdoor exploration to encourage learning. We seek to support the development of children in creating their own narrative linking things they see and hear in books with things they can experience in real life outdoors.
