

## Wolves! (Know-It-Alls)

Early learning has never been more alive...or lively! Dramatically illustrated and die-cut, with engaging texts, the Know It Alls(tm) series provides a first scientific look at our planet. Wolves! uses an entertaining question-and-answer format that illustrates how the wolf, majestic ancestor of the dog, shares many canine characteristics: wolves are loyal, territorial, caring towards others in the pack, carnivorous, and very communicative.
